Re: 089-17619-00416  
First Administrative Amendment to  
SSOA 089-11694-00416

Dear Ms. Tuttle:

Midwest Service Center, LLC was issued a Source Specific Operating Agreement on January 3, 2002 for a electric motor repair shop located at 408 South Shelby Street, Hobart, Indiana 46342. On April 17, 2003 Midwest Service Center, LLC submitted a request to IDEM, OAQ, to determine if a newly purchased building located at 2400 East State Road 130, Hobart, Indiana could be permitted under their existing permit (S 089-11694-00419) as a combined source.

It is understood that the 2400 East State Road 130 building will be used mostly for storage of equipment. However, the sand blast tent from the 408 South Shelby Street will be moved to the 2400 East State Road 130 building and there may be occasions when the sand blast unit will be used at either facility. The surface coating operation covered under this permit will continue to be performed at the 408 South Shelby Street location only.

After reviewing the "Determination of Major Source for Collocated Sources" form submitted by Midwest Service Center, LLC it has been determined that the 408 South Shelby Street building and the building at 2400 East State Road 130, Hobart, Indiana will be considered one source. Therefore, the building located at 2400 East State Road 130 will be permitted under the existing permit S 089-11694-00416.

Based on the above information, no additional permitting approval is necessary for the described construction project. All terms and conditions of Source Specific Operating Agreement S 089-11694-00416 remain unchanged and in effect. Please attach a copy of this amendment to the original permit.

If you have any questions on this matter, please contact Walter Habeeb, at OAQ, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana, 46206-6015, or call (317) 232-8422.

Sincerely,
